# **75 YEARS OF SELECT SPORT**

2022 is a year of celebration. A year to celebrate 75 years of innovation based on our founder Eigil Nielsen's dedication to creating the perfect ball. It all started in 1947 when Eigil created his first football that laid the path for him to invent the modern football as we know it today. His innovative ways have helped SELECT grow through the years and cemented our status as both Player's Choice and League's Choice. Today, our handballs and footballs are official match balls in numerous leagues, clubs and federations worldwide.

Currently our clothing range plays an increasingly greater role in our business focus, as SELECT is now a total supplier of balls, clothing, training equipment and sports supports to professional and amateur football and handball clubs.

We know that our actions matter and believe that innovation includes sustainable efforts. We want to use more recycled materials and we are proud to increase the number of products with this focus, such as the Planet football and the futsal Planet ball made from recycled plastic bottles and our Baselayer and Oxford clothes made with recycled polyester.

75 years of innovation have passed and SELECT is still striving to deliver high quality products to players around the world - a mission we are excited to continue many years to come.

Peter Knap, CEO

# **FOOTBALLS**

Introducing a new design for our professional and club footballs. The design uses dynamic lines and colour splashes, contrasted by graphic elements, that stand out from the classic white base colour - a SELECT staple.

The new design compliments the straight flight of the ball and ensures optimal visibility for players, goalkeepers and spectators.

# **HANDBALLS**

Introducing a new design for our high-quality handballs with colourful streaks depicting the fast and forceful game.

As the largest producer of handballs in the world and official match ball supplier to associations, leagues and clubs worldwide, SELECT is the preferred handball by many.

NEW

SHIN GUARDS

### **FUTSAL RANGE**

The new and extensive SELECT Futsal range meets every need from adult to children and amateurs to professionals. An updated colourful design ensures better visibility and faster player reactions fit for the fast-paced game.

The popular Futsal Super is now thermo bonded – heat and pressure activated glue bonding the 32 panels – and with a new 3D diamond structured surface for optimal ball contact and control.

Futsal Planet, a new match and training ball, is made from recycled plastic bottles and natural latex reducing the environmental impact of the ball while still offering long durability and optimal control.

Futsal Light DB is reduced in weight and the perfect transition from youth to senior level.

# SPAIN TEAMWEAR FOR ADULTS AND CHILDREN

The new and extensive range of player clothes and training wear for men, women and children in a quick-drying, durable and lightweight material. The new breathable player shirts with short and long sleeves and matching player shorts feature a cool embossed effect.

NEW

SHIN GUARDS

# **OXFORD LEISUREWEAR** FOR ADULTS **AND CHILDREN**

A new clothing range of leisurewear in soft cotton and recycled polyester for men, women, and children. The Oxford range includes t-shirts and hoodies with stylish colour blocks, and polo shirts, pants, shorts, and padded jackets in a new and functional design.

SHIN GUARDS

# GOALKEEPER GLOVES

The new SELECT goalkeeper glove 88 Pro Grip. A lightweight glove in a negative cut with 3 mm Quartz latex for a perfect grip in all kinds of weather. The professional match glove has airprene inside for great comfort, flexibility and minimal water absorption.

# **PROFCARE COMPRESSION SUPPORTS WITH PADS**

The new compression supports with lightweight pads for knees and elbows offer optimal movement and protection including easier recovery.

# MILANO BAGS

High quality sports bags in various sizes for training, match and travel. The new MILANO range has cool design updates and practical features to suit the needs of players on the go.

# **TEAMGEAR TRAINING**

SELECT Teamgear now includes individual training packages for juniors and seniors to use in the club or park or at home in the garden. The training gear comes in a handy storage bag to carry over your shoulder.

The new acceleration trainer is ideal for goalkeeper training but also for handball and football players who want to improve their speed in all directions.

A goal net has finally been added to the Teamgear range – the perfect tool to train your shooting skills and increase efficiency and focus.

The new training gear also include coordination rings for running and coordination exercises, an agility set for goalkeeper jumping exercises and an agility ladder for outdoors coordination training.

# RECYCLED **MATERIALS**

Baselayer underwear for sports made with Repreve® Polyester - a yarn made from recycled plastic bottles

The new Futsal Planet and Planet football, a match and training ball, made from recycled plastic bottles and natural latex

Oxford leisurewear with 40% recycled polyester

Eco ice pack, a CO<sub>2</sub> friendly ice pack without water. By omitting water in the ice packs, we avoid transporting 45 tonnes of water and can reduce the CO<sub>2</sub> emissions by 44% annually compared to our regular ice packs containing water

Recyclable water bottles in a bio-based material processed from sugar canes

To produce our 2022 catalogue, we have chosen the sustainably conscious printing house, Johnsen Graphic Solutions, carrying the Nordic Swan Ecolabel, the ISO 14001 certification and an FSC certification

# THE ORIGINAL 32 PANEL **BALL CONSTRUCTION**

Every single football, handball and futsal ball from SELECT is based on the revolution from 1962, where our founder. Eigil Nielsen, invented a ball made of 32 panels. The overriding desire was to create the most reliable ball with the most predictable, straight flight and a bounce neither too high nor too low.

It was impossible to make a perfectly round ball with just 18 panels, which was the standard construction of a ball in the past. With the 32 panels - 20 hexagons and 12 pentagons - SELECT succeeded in creating the roundest ball ever seen. Later, a group of American scientists won the Nobel Prize for discovering that the molecules of carbon with a special irradiation organize themselves as a completely round ball - something Eigil Nielsen had already discovered and realized in his football with 32 panels, why the reinvention was named "the football molecule".

A ball with optimum roundness is essential to obtain reliable aerodynamic - a straight flight and a controlled bounce. Our finest football, BRILLANT SUPER TB, has been thoroughly tested in a wind tunnel at the Institute of Health & Sports Science at the University in Tsukuba, Japan. The results show that BRILLANT SUPER has a better aerodynamic than other top balls in the market. The ball's classic construction with 32 panels means that the ball meets resistance at a later point in its trajectory through the air, thus retaining a steady, high speed over a longer period of time. This provides a stable and more predictable flight - highly valued by all football players.

The majority of our balls are still based on Eigil Nielsen's original invention of the 32 panel ball construction, as we never compromise on quality, playability or durability.

# **FOOTBALLS**

# OFFICIAL LEAGUE MATCH BALLS

SELECT is the official match ball supplier to the Swedish Allsvenskan and Superettan, the Danish national team, the Portuguese league, the Icelandig league, the Bosnian and Herzegovinian league, the Romanian league, the Danish men's and women's league and first division, the Norwegian men's and women's league and the Finnish league.

Our BRILLANT SUPER ball is also supplied to a vast number of teams and federations around the world. Furthermore, our German subsidiary DERBYSTAR is the official match ball supplier for the Dutch league and the German Bundesliga. The Bundesliga is ranked as one of the world's best football leagues by FIFA

# OFFICIAL LEAGUE MATCH BALLS

In USA, SELECT is the official match ball of the USL and NJCAA as well as several High School State Conferences nationwide.

### league's choice™

# **DERBYSTAR BY SELECT**

DERBYSTAR is official match ball supplier to the Bundesliga and the Bundesliga 2 with BUNDESLIGA BRILLANT APS.

DERBYSTAR has been a part of SELECT SPORT since 1991, building a strong position in the top football leagues in Europe through the years.

DERBYSTAR is deeply rooted in the German football community with relations to elite clubs throughout the regions. The Bundesliga is among the strongest leagues in the world ranked second best by FIFA making this partnership a force in the world of football.

**BUNDESLIGA** 

**OFFICIAL PARTNER** 

**OFFICIAL PARTNER** 

# **LIGA PORTUGAL**

BRILLANT SUPER TB is the official match ball in the best league in Portugal – Liga Portugal.

Season 2019-2023 features SELECT as the official match ball supplier in all three competitions of the league: 1st league Liga NOS, 2nd league LigaPro and the

Portuguese League Cup, Allianz Cup, with a total of 32 teams participating in the competitions.

Liga Portugal is one of the most competitive professional championships in Europe, ranked 6th place by UEFA.

# **3F SUPERLIGA**

SELECT is the official ball supplier to the best Danish leagues for both men and women, specifically 3F Superligaen, including the men's 1st and 2nd division and Gjensidige Kvindeliga.

3F Superligaen is now playing with the new Brilliant Super UZ - the world's first football made with ultrasonic technology.

All matches in the men's 1st and 2nd division as well as the Women's League are played with Brillant Super TB. A new and exclusive ball design is introduced every season.

Cooperation with the leagues ensures the best balls on the market for all stadiums.

# **ALLSVENSKAN & SUPERETTAN**

SELECT is the official match ball supplier to Allsvenskan and Superettan, and the partnership has evolved through the years to now include official SELECT clothing with match and training wear in several Allsvenskan football clubs.

Allsvenskan, Swedish Football League, is the highest league in Sweden founded in 1924. 16 teams are in the league playing from spring to autumn. Superettan is the

second highest league, which has been played since 2000, and the two best teams from the Superettan matches advance to Allsvenskan.

Every year the champions of Allsvenskan lift the Lennart Johansson Trophy named after late Lennart Johansson who among other things was President of UEFA between 1990-2007.

# **ELITESERIEN & TOPPSERIEN**

SELECT is the official match ball supplier to Eliteserien, OBOS league and Toppserien. Eliteserien and Toppserien are the top football leagues in Norway for men and women with 16 teams in Eliteserien and 10 teams in Toppserien.

Through our partnership, we are also official clothing suppliers to two teams in Eliteserien with our teamwear, training wear and leisurewear.

SELECT is also official match ball supplier to the Norwegian Championship for men and women, through the Norwegian Football Association, where the annual finals take place in December.

## - GROUNDBREAKING TECHNOLOGY

Introducing the groundbreaking Brillant Super UZ - the world's first football made with ultrasonic technology. We have created a ball with unsurpassed control and amazing aerodynamics as the new construction method ensures the perfect indentation between the panel and an even more stable flight benefiting both players and goal-keepers.

Brillant Super UZ is made using a brand new and Danish patented construction method in which ultrasonic sound waves bond the 32 panels of the ball together. The panels are held together using pressure and ultrasonic sound waves activate the microfiber molecules by creating friction. This bonds the panels together.

The ball's surface is a new and improved PU microfiber material from Japan, which is manufactured using a water-based method. The PU surface has a new 3Ddiamond structure that ensures optimized friction between ball and boot as well as the best grip for goal-

keepers. The new construction also holds a newly developed foam lining with two layers, which gives the ball a soft exterior. Inside, the Zero-Wing bladder is covered with a textile fabric to ensure the roundness of the ball. The compact interior of the ball with to the two-layer foam lining add a feeling of lightness and speed.

The Zero-Wing latex bladder has a built-in balance point located opposite the valve hole, which ensures that the ball is in balance, retains air and has the right bounce. In short, the Brilliant Super UZ is comprised of the best quality materials available. The ball has undergone thorough testing by more than 300 professional players in 2020 with very positive feedback.

Brilliant Super UZ is suitable for matches at the absolute highest level, and the combination of the construction and the materials ensure the best playing abilities and the best durability.

Approval	Ball size	Circumference	Normal weight	Light weight
	3	60 - 62 cm	320 - 340 g	280 - 310 g
	4	63.5- 66 cm	350 - 390 g	290 - 320 g
	5	68 - 70 cm	410 - 450 g	350 - 380 g
FIFA Basic	5	68 - 70 cm	410 - 450 g	
FIFA Quality Pro	5	68.50 - 69.50 cm 420 - 445 g		

# THERMO BONDED

## - QUALITY INSIDE AND OUT

BRILLANT SUPER TB has the characteristics that distinguish a classic SELECT ball and is suitable for matches at the absolute highest level. The materials are carefully selected and have exactly the qualities that give the best playability and durability.

The optimum roundness is ensured with the well known 32 panels spread over 12 pentagons and 20 hexagons. The outer material of the ball consists of synthetic leather with a light surface structure that minimizes air resistance.

Under the synthetic leather hides the SELECT natural latex Zero-Wing bladder with built-in balance point in the opposite end of the valve hole. On the outside of the bladder is a lining made of a 4 mm. thick and exclusive foam material. The outer material and the underlying foam give the ball a softer, lighter and a more comfortable touch. Despite the fact that the ball feels lighter, the weight is the same as a traditional football.

TB stands for Thermo Bonding, a method that activates the glue with heat and pressure to bond the 32 panels. There are no stitches, and the TB ball takes up less water keeping the original weight better when playing on a wet surface.

The ball has, among other places, been tested at the Institute for Health & Sports Science at Tsukuba University in

Japan. The test results showed that the ball – just like other balls from SELECT – faces less wind resistance in the first part of the flight, moves easier through the air and meets wind resistance later than other balls on the market.

The FIFA Quality Programme for Footballs was introduced in 1996 to harmonise and improve the quality of footballs. Focusing on the ball, the very heart of the game, the prestigious FIFA quality labels are only given to balls that have passed rigorous testing.

FIFA Quality Pro is reserved for only the best standard of match balls available. FIFA Basic is the newest standard focusing on cost efficiency, durability and safeguarding player safety.

Approval	Ball size	Circumference	Normal weight	Light weight
	3	60 - 62 cm	320 - 340 g	280 - 310 g
	4	63.5- 66 cm 350 - 390 g		290 - 320 g
	5	68 - 70 cm	410 - 450 g	350 - 380 g
FIFA Basic	5	68 - 70 cm	410 - 450 g	
FIFA Quality Pro	5	68.50 - 69.50 cm 420 - 445 g		

# HAND STITCHED

### - HIDDEN BEHIND THE ELEGANT EXTERIOR

Common to all our balls is that the quality is high and the durability long. An optimally round football consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 630 double stitches and 60 corner stitches and are closed off - especially for SELECT - with a double knot. The ball lasts longer this wav.

Hidden behind the elegant exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high-performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our footballs with build-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and ensure that it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of this material can be either "shiny", "grain" or "pattern" and consists of lots of PU fibres. Combined, this gives a strong surface with consistent softness.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here, they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance. Our standards for quality are the highest in the industry and the balls are of course tested and approved according to FIFA standards.

The FIFA Quality Programme for Footballs was introduced in 1996 to harmonise and improve the quality of footballs. Focusing on the ball, the very heart of the game, the prestigious FIFA quality labels are only given to balls that have passed rigorous testing.

FIFA Quality Pro is reserved for only the best standard of match balls available. FIFA Basic is the newest standard focusing on cost efficiency, durability and safeguarding player safety.

# **DUAL BONDED**

## - IMPROVED STABILITY AND A SOFTER TOUCH

The special feature of the dual bonded production method is that the ball's 32 panels are both stitched together and then sealed in the edges.

A DB ball is a construction that consists of a PU-material laminated with foam. Next, two layers of textile underlining are laminated to the foam layer to add stability. The panels are then printed with 3 mm. edge glue and stitched by machine. The glue is activated in the heat mold to hide the stitches and the seam sealing is done by hand. By

using glue in the sealing of the seams, the water uptake is reduced significantly.

The bladder inside is an SR bladder with excellent air retention. The result is a football with both stability, control and a softer touch compared to other footballs. Brillant Training DB, Club DB, Atlanta DB, Talento DB, Future Light DB balls are produced using the dual bonding method.

Approval	Ball size	Circumference	Normal weight	Light weight
	3	60 - 62 cm	320 - 340 g	280 - 310 g
	4	63.5- 66 cm	350 - 390 g	290 - 320 g
	5	68 - 70 cm	410 - 450 g	350 - 380 g
FIFA Basic	5	68 - 70 cm	410 - 450 g

# THERMO BONDED

## - LOW BOUNCE FOR OPTIMUM CONTROL

The popular SELECT FUTSAL SUPER is now thermo bonded. TB is a method that activates glue with heat and pressure to bond the 32 panels of the ball. There are no stitches, giving the ball a fantastic, soft touch.

Hidden behind the elegant exterior of the futsal ball hides a specially developed butyl bladder with polyester fibers inside. That ensures a very reliable low bounce compared to a normal football making it much easier to control. All our balls have a butyl valve inside covered by foam to avoid the bladder from puncturing when inflating the ball.

To stabilise the ball and ensure it remains round, the 32 panels are lined with several layers of textile material and foam. The lining and foam helps to adjust the softness and improves the contact between the ball and the foot.

The outer layer of the ball is made of synthetic leather in polyurethane (PU). The surface of the FUTSAL SUPER TB is in a new 3D diamond structure ensuring optimal friction between ball and boot.

High quality is essential for SELECT. Each ball undergoes a stringent test at our production facilities in Pakistan. The balls are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance. Our standards for quality are the highest in the industry and exceed FIFA's regulations for the best match balls. The balls are of course tested and approved according to FIFA standards.

# **DUAL BONDED**

## - FOR A SOFTER TOUCH AND OPTIMUM ROUNDNESS

Futsal is a technically demanding sport that requires a special ball.

We are introducing the futsal DB ball produced using the dual bonding method. The 32 panels of the ball are both stitched and sealed in the edges - the dual bonding method.

The panels of the ball are printed with a 3 mm edge glue and stitched by machine. The glue is activated in a heat mold to hide and seal the stitches. By using glue in the sealing of the seams, the water uptake is reduced significally and the ball is even more round, as you cannot feel the gathering of the panels.

The ball is made from a high-quality PU material and a special foam padding that ensures an extra soft touch and faster passes. Inside the ball is a specially developed butyl bladder filled with polyester fibers, which ensures a reduced bounce, perfect roundness, and easy control.

	Circumference	Weight	Bounce	Approval
Futsal Super	62,5-63,5 cm.	410-430 g	55-65 cm.	FIFA Quality Pro
Futsal Master, Planet, Mimas, Samba	62-64 cm.	400-440 g	50-65 cm.	FIFA Basic
Futsal Attack, Street, Copa	62-64 cm.	400-440 g	50-65 cm.	
Futsal Light DB	62-64 cm.	350-370 g	50-65 cm.	
Futsal Talento 13	57-59 cm.	350-370 g	50-65 cm.	
Futsal Talento 11	52,5-54-5 cm.	310-330 g	50-65 cm.	
Futsal Talento 9	49,5-51,5 cm.	270-290 g	50-65 cm.

# SPONSORSHIPS IN THE WORLD OF HANDBALL

SELECT is the world's largest producer of handballs and official match ball supplier to a wide range of associations, leagues and clubs around the world. All tournaments by EHF have SELECT as official match ball – including the EHF Champions League, EHF European League and the European Championships. Our ULTIMATE is the official league ball in France, Poland, Russia, Iceland, Norway,

Slovenia, Lithuania, Estonia and Latvia and is used by many of the teams in the strong leagues of Denmark and Hungary. SELECT is also supplier to the national teams of Austria, Chile, Iceland, Lithuania, Portugal and Turkey and has been the Danish national team's preferred ball brand for over 50 years.

### league's choice™

### **PGNIG SUPERLIGA WOMEN & MEN**

SELECT Sport is the official match ball supplier to both premier Men's and Women's handball leagues, PGNiG Superliga Poland.

This sponsorship agreement is one of the longest, continuous contracts for SELECT in Poland. It all started in 2016, the same year PGNiG Superliga was founded.

SELECT Ultimate v22 is the official match ball for season 2021/2022.

### **LFH & LNH FRANCE**

SELECT Sport is the official ball supplier to the French women's and men's handball elite leagues with Ultimate as the official match ball.

SELECT has been the official match ball supplier to the LNH (men's league) since 2012 and the LFH (women's league) since 2014.

Both French leagues are among the strongest leagues in the world, and both have extended their partnership with SELECT for the next coming seasons.

### **HAND STITCHED**

### - 360 DEGREES OF PERFECTION

Common to all our balls is that the quality is high and the durability long. An optimally round handball consists of 32 panels made up of 12 pentagons and 20 hexagons. The 32 panels are sewn together using 540 double stitches and 60 corner stitches and are closed off – especially for SELECT – with a double knot. The ball lasts longer this way.

Hidden behind the colourful exterior of the balls in our Pro and Club Series is a Zero-Wing bladder made of high performance natural latex. The concept has been developed to ensure that not only the ball but also the bladder is as round as possible. We solely use latex bladders in our handballs with built-in balance point at the opposite side of the valve hole. This, together with the Zero-Wing concept, ensures a perfectly balanced ball with a very lively bounce.

To stabilise the ball and to ensure it remains round, the 32 panels are lined with several layers of textile material. The lining helps to adjust the softness as well as the weight of the ball.

The most important factor regarding the softness of the ball is actually a layer of neoprene foam, which is placed between the lining and the synthetic leather. The foam maintains its softness and elasticity match after match.

The synthetic leather used in our handballs consists of an outer layer of "grippy" PU with a backside of non-woven polyester fibre. In addition to this, the special fibre threads are inlaid in a crisscross fashion to ensure the strength and stability of the material. This ensures a ball with a perfect grip, optimal balance and extreme durability.

High quality is essential for SELECT. For this reason, each ball undergoes a stringent test at our production facilities in Pakistan. Here they are tested for stitching, surface, roundness, circumference, weight, air retention and colour printing. Even the bladders are inflated to ensure perfect balance.

SHIN GUARDS

### **DUAL BONDED**

## - DUAL BONDED FOR A SOFTER TOUCH AND IMPROVED ROUNDNESS

The special feature of the dual bonded method is that the ball's 32 panels are both stitched together and then glued in the edges.

The ball is constructed with an outer PU material laminated with 2 mm. foam and then an extra inserted 3 mm. layer of foam between the surface and the inner bladder. The panels are printed with 3 mm. edge glue and stitched by hand or machine.

The glue in the edges is activated in a heat mold to hide and seal the stitching, which means that the gathering of the 32 panels cannot be felt, and the ball therefore becomes even more round.

The DB method is used in our handball, FORCE DB, Light Grippy DB and Torneo DB. The bladder in this ball is a reinforced SR bladder with excellent airtightness for increased stability and controlled bounce. The overall combination of the materials and the production method gives the feeling of an incredibly soft handball with improved grip and roundness.

### THE WORLD'S FIRST INTELLIGENT HANDBALL **ULTIMATE iBall**

#### **INTELLIGENT SENSOR FOR AUTOMATED** PERFORMANCE MEASUREMENT:

- Shot detection
- Shot speed
- Pass detection
- Pass speed

### **ULTIMATE iBall** WITH A BUILT-IN CHIP THAT TRACKS AND **DISTRIBUTES DATA** IN REAL TIME

SELECT presents the world's first intelligent handball, Ultimate iBall, with a built-in chip that tracks and distributes data in real time.

The handball premiered at the VELUX EHF FINAL4 2018. This was the first major in European sports to use the new tracking technology capturing exact ball speed, shot detection, position of the shot and more bringing fans closer to the game. Currently, the iBall is used in both Champions League FINAL4 and EURO finals for men and women.

The SELECT Ultimate iBall and the associated new insights into the game will make the performance of players more tangible and result in a significant increase in fan engagement.

#### **iBall TECHNOLOGY**

Spectators are able to observe the speed of the ball and the distance from goal for every shot in the game.

The shot distribution on court from one team or a specific player will be displayed for broadcasting and digital channels.

The position of every shot entering the goal will be displayed, illustrating scoring strategies. All information is detected automatically and in real-time with interfaces for both broadcast and digital channels.

**MORE ABOUT IBALL** 

The stars of Europe's most prestigious handball competitions are playing with a quality match ball from SELECT.

SELECT's agreement with EHF includes us providing the official match ball for all the top EHF competitions, including the EUROS as well as the EHF Champions League Men, DELO EHF Champions League, and the EHF European League Men and Women.

Each season, we will present a new high-class design for both EHF Champions League competitions as well as a powerful and dynamic ball for both EHF European League competitions. Those designs will feature main elements of the EHF brand identity and resemble the core values of these competitions.

# **BASELAYER**

## - FUNCTIONAL UNDERWEAR FOR SPORTS WITH LIGHT COMPRESSION

We are introducing our new range in underwear for sports, Baselayer, with recycled polyester that offers warmth and light compression, mobility and comfort during training and sports.

All styles in the Baselayer range are made with Repreve® Polyester, a type of yarn made from recycled plastic bottles. The knitted fabric made from recycled polyester is breathable, quickdrying and added an antibacterial treatment to ensure odorless clothes.

**SELECT HISTORY** 

# REFEREE UNIFORMS

We are introducing our new clothing range with referee uniforms.

SELECT referee clothes focus on movement and comfort with practical details such as two chest pockets, a separate pocket for writing utensils and an inner trouser pocket for keys.

The referee uniforms have been developed and tested by referees, and are made in a quick-drying, breathable and durable material.

# **GOALKEEPER GLOVES**

## AN ANATOMICAL **WORK OF ART**

The top model 88 PRO GRIP consists of 3 mm Quartz Latex guaranteeing a perfect grip in all weather conditions. The latex is wrapped from palm to backhand maximising the catching area, and the negative glove cut provides constant latex contact between the hand and the ball. The soft airprene inside provides optimum comfort, increases the glove's flexibility and ensures minimal water absorption when playing in wet weather.

With the aid of an Anatomical Fit System the gloves have been designed with a slight bend according to the natural gripping position of the hand. Thus ensuring comfort, flexibility and movement of the glove aligned with the speed of the fingers.

A wide wrist strap allows a feeling of stability and safety in the wrist. The wrist is asymmetric and has an elastic insert to ensure easy entry into the glove.

#### Types of cuts

#### **Negative Cut**

A popular glove cut choice that reminds of Flat Cut. This style of cut also has gussets between the palm and the backhand. The gussets of the 88 glove are also made of latex giving constant latex contact between the glove and the ball. Negative Cut fits snugger and the fingers are held in place giving optimal ball contact when catching. This is the most common cut among professionals.

#### Flat Cut

Traditional glove cut with a flat palm construction providing a larger area of contact and making the glove more flexible. This style of glove typically fits looser than many other styles with more room for the fingers. Flat Cut is the most popular cut used for finger protection gloves.

#### Latex technology

#### **Flexion Latex**

Durable latex developed for youth gloves. Suitable for all weather conditions

#### **New Basic Latex**

Durable latex with a fantastic grip in all kinds of weather that makes it suitable for both training and matches

#### **New Softy Latex**

Soft and durable latex - suitable for all weather conditions. Highly recommended to prewet for best grip possible

#### **Dura Grip Latex**

Soft and strong latex for all weather conditions. The latex is longlived and suitable for both training and matches

#### **Dura Pro Latex**

Strong and durable latex especially suitable for use on artificial grass

#### **Professional Grip Latex**

High quality latex for professional matches. The glove has a perfect grip in all kinds of weather.

#### Super Soft Latex

Very soft and durable latex, used for professional match gloves. Provides a good grip and optimum contact with the ball. Well-suited for all weather conditions.

#### **Ultra Pro Latex**

Soft and hardwearing latex, especially developed for our best youth gloves, that combines durability with a fantastic grip. For all weather conditions

#### **Quatz Latex**

Top performance latex. Ideal for professional gloves. Provides a good grip in both dry and wet weather compared to other kinds of latex

#### **Adhesion Plus Latex**

Top performance latex with a good grip in all kinds of weather and great contact with the ball.

#### Glove technology

#### **Anatomic Fit System**

Ensures correct fit, as the glove is designed according to hands' natural grip position

#### **Punch Zone**

In non-sliding material for increased force and reduction of the rotary effect on the ball

#### Wide wrist

Extra wide wrist strap for improved support and comfort

#### Comfort

Mesh on the inside of fingers to ensure good air circulation

#### Flexibility

Injection mold spiderweb design for a light-weight feeling and increased flexibility

#### **Protection**

## Latex on fingertips

For stability and impact protection

#### Glove size

Measure the length of the hand as shown and find suggested sizes in the chart below.

# **PREVENT** HEAL **RECOVER**

Bring your own massage therapist everywhere

Kristoffer Glavind Kjær, Body Therapist treating top athletes in cycling and handball and owner of ManuVision.

# **BALL-PUNKTUR** & BALL-STIK

Ball-Stik and Ball-Punktur was developed more than 45 years ago by relaxation therapist Grete Wolfgang. Since then, the massage balls have become iconic and are used in gyms, schools and private homes.

The massage balls soften muscles, stimulate the blood circulation and create lymphatic circulation to reduce swelling.

They are produced in Denmark, and have been since 1972, with phthalate-free plastic.

Ball-Punktur is small and handy and can be brought everywhere.

Treating the Tour de France riders, Kristoffer Glavind Kjær has introduced the Ball-Punktur to help riders like three-time World Champion Peter Sagan recover from a day's race by reducing muscle tension, effectively strengthening muscles and increasing blood flow to help them perform at the highest level.

The massage ball also follows the Danish national handball team, as it was a part of the 2019 IHF Men's World Championship when they took first place, and Ball-Punktur was also a part of the Men's EHF Euro 2020.

### **LEGENDARY SINCE 1947**

SELECT Sport was founded in 1947 by Eigil Nielsen, goalkeeper for the Danish national football team, who devoted his life to create the perfect ball. The name of the company was given because of the exclusive leather that was specially selected for the ball production.

By producing many of the ball industry's groundbreaking creations such as the first laceless football, the first ball with 32 panels and balls made of synthetic leather, SELECT naturally became a trendsetter.

Back in 1951, SELECT signed a contract to supply balls for the Danish national football team, and in 1957 SELECT was appointed official supplier by the Danish Handball Federation. These partnerships have continued ever since and are some of the longest in the history of sport. A large number of agreements with both remarkable football and handball federations, clubs and players have since been made.

Today, SELECT is known as the ball specialist. Our footballs, futsal balls and handballs can be found in more than 50 countries, and we are the world's largest supplier of handballs. More than three million different SELECT balls are produced each year through a close cooperation with Anwar Khawaja Industries in Pakistan.

We have been developing balls for 75 years, and the passion for innovative craftsmanship still lives on in our daily work. Football, futsal and handball matches around the world are played with balls built on Eigil Nielsen's original principle of 32 panels, just as most balls produced worldwide are based on SELECT's inventions.

Eigil Nielsen develops his first football and 1947 SELECT is born.

1951 SELECT presents the world's first laceless football.

**1962** SELECT presents the world's first 32-panel football.

**1972** SELECT presents the world's first 32-panel handball.

**1974** SELECT presents the world's first hand-sewn PU football.

**2012** SELECT presents the world's first intelligent football, the SELECT iBall.

The world's first 2017 resin free handball, Maxi Grip

**2018** SELECT presents the world's first intelligent handball, the SELECT iBall.

SELECT presents the 2021 world's first Ultra Sonic football.
